

# Capsense Keyboard with RS232 Interface

LP 3595

**Category** : Capsense Keyboard with RS232 Interface  
**Model** : LP 3595  
**Application:** Medical Equipment (IVF Center)  
**Material** : Acrylic and PCB Based  
**Layout** : Customized

## Specification

**Number of Key** : 12 key With Backlight  
**Backlight Color** : Green, Blue, And Red  
**Supply Voltage** : 12V DC  
**Mounting Style** : Stud Mounting  
**Dimension** : 311mm\*140mm  
**Operating Temperature:** -20 C ~ +65 C

## Feature

- Advanced Human-Machine Interface Design with 12 Capacitive Touch Key with Green, Blue & Red Backlight
- PCB-based Capacitive keypad with Dynamic Design and Layout.
- Dust Proof, Anti-Interference, which make it a good choice for Medical use
- Operating Thickness of button up to 7mm.
- Excellent Durability, Robust
- Smooth & user-friendly touch keys
- Fully controlling Capacitive touch sense keypad
- Versatility
- Low cost
- Ease of implementation

## Applications

Medical Devices, IVF Center
