

# Full fledge keypad with Backlight technology

LP 3619

**Category** : Capsense Keyboard with  
Backlight Technology

**Model** : LP 3619

**Application:** Medical Industry & Many More

**Material** : Acrylic and PCB Based

**Layout** : Customized

## Specification

**Number of Key** : 98 key With Backlight

**Backlight Color** : Green

**Supply Voltage** : 5V DC

**Protocol** : USB

**Dimension** : 400mm\*150mm

## Feature

- Based on the Capacitive technology, with dedicated electronics.
- Delivers full speed data output On USB.
- Computer Compatible Keyboard is equipped with a QWERTY keypad layout having capacitive buttons.
- Modern, attractive, and smooth interface
- Completely Backlight
- Easy to clean, Water sealed, IP65
- The thickness of operation 4mm
- Robust built
- No mechanical wear
- Strong Graphic clarity
- Color options available
- Excellent Sensitivity

## Applications

**Medical Industry, Security and Access Control**

**Aerospace, Defense, Intelligence control, Consumer Electronics**
